

SOUND GARDEN

RECOGNITION LEVELS

The Sound Garden is growing into a joyful, welcoming space where children of all abilities can dig into rhythm, sound, and creativity through hands-on play. Melodies will fill the downtown Wilmington air in this outdoor, nature-inspired garden where creativity blooms and music takes root. Rooted in our mission, it invites children to explore not just music, but the science behind it. As they tap, spin, and chime, they discover how vibrations create sound, how patterns form rhythm, and how creativity blossoms through exploration.

We want to invite our community to help this space continue to bloom! By supporting additional outdoor instruments, you can expand opportunities for movement, sensory play, and musical exploration. Every gift, large or small, helps cultivate curiosity, nurture creativity, and turn everyday play into meaningful learning.
